

Stay at home

I have to stay at home with my family .

My favourite places are closed

People are being sick and people do not

get sick if they stay at home.

Now all people are staying at home unless

they are helping other people

I can

still

go out

for

walks

but

I

cannot go

to

the

playground.

I

cannot

be

close to

other people

except

my

family

and

doctors

and

nurses

if

I

feel

sick.

I can

still

talk to

other people

but

I

must

stay

2

2

metres

away.

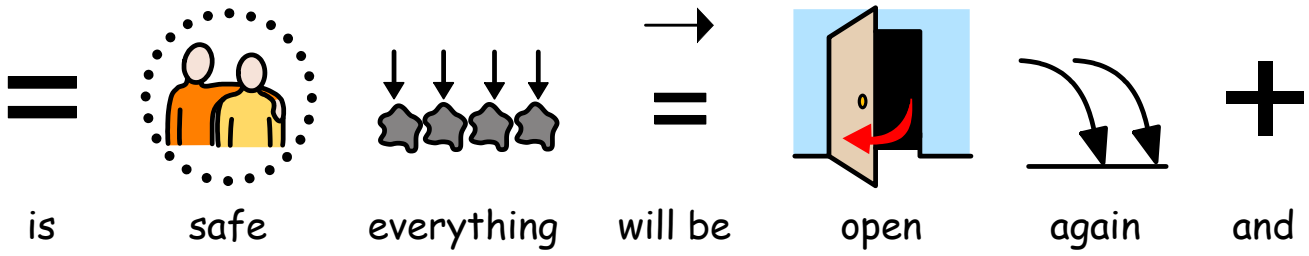

One day

when

it

is safe everything will be open again and

I can go out again.

Mum or Dad will tell me

when it is OK.

If we are really good at staying at

home the places where I want to go

will be open again quicker.
