

Recognise the percent symbol and write percentages as a fraction and as a decimal

1 Complete the table below by filling in the missing percentages, fractions and decimals.

	%	fraction	decimal
a	75 %	$\frac{\square}{100}$	<input type="text"/>
b	<input type="text"/>	$\frac{54}{100}$	<input type="text"/>
c	<input type="text"/>	$\frac{\square}{\square}$	0.67
d	7 %	$\frac{\square}{\square}$	<input type="text"/>

2 a Marik says $\frac{70}{100}$ is equivalent to **7%** and **0.07**. Is he correct? Explain your answer.

.....

.....

b Brad scores **57** out of **100** in his Maths test. Write this as a decimal, percentage and a fraction.

 %

 $\frac{\square}{\square}$

c Theo adds $\frac{3}{10}$ to $\frac{4}{10}$.

What is his answer as a percentage and decimal?

 %
