

Write a question as your subheading. Don't forget to underline it.

Include what she is famous for

I included a picture with a caption.

Who is Wangari Maathai?

Wangari Maathai is famous for winning the Nobel Peace Prize in 2004. This is a very important award! She was the first black, African woman to win it. What a brilliant achievement that is. She won the prize because she encouraged others to plant trees in their communities. She had noticed the awful effects of deforestation and inspired others to help her plant more trees.

I used lots adjectives in my writing.

Wangari Maathai planting trees.

I included facts and information from the sheet we read yesterday.
